1. *Is a NF obliged to register for a competition if eligible/qualified?*

Whether or not a NF registers its team(s) is at the sole discretion of the NF. NFs are not obliged to register their teams for any competition.

2. *Does a NF have to register with all eligible/qualified teams?*

It is at the sole discretion of the NF which and how many of its eligible/qualified team(s) the NF registers.

3. *Can a NF withdraw a registered team before closing of team registration?*

Once a teams participation is confirmed by the NF in backend.fiba3x3.com, withdrawing the team is only possible by contacting FIBA (3x3eligibility@fiba.basketball) prior to closing of team registration.

4. *Can a NF withdraw a registered team after closing of registration?*

With the closing of team registration the participation of a registered team becomes binding as per Book 6 IR and the team must be available to play at all times during the event period, that shall include the qualification period (if any). FIBA therefore highly recommends to check before registering a team for any religious holidays or any other reasons that may prevent the team from playing anytime during the event period.

Withdrawing the team after the registration deadline will be subject to the sanctions of Art. 6-40 FIBA Internal Regulations.

5. *Can a NF register teams after the closing of registration?*

After the closing of registration the registration of a team that was not confirmed by the NF is deemed withdrawn and FIBA may elect a substitute team in its discretion (Book 6 IR). The NF may apply for an 48h extension of the team registration deadline at the costs of an administrative fee of 2,500 USD.

FAQs

1. Can a NF request verification of a player with a play.fiba3x3.com profile with „Pending“ or „Not registered“ status?

Only confirmed profiles can be verified.

- If a player has no profile at all, the player first needs to create and confirm a profile.
- If a player has a profile with *Not Registered* status, the player needs to create and confirm a profile and can request merging of the various profiles: <https://help.fiba3x3.com/en/support/solutions/articles/35000001743-i-have-multiple-profiles-how-do-i-merge-them->
- If a player has a profile with *Pending* status, the player can trigger a resending of the confirmation email via his own play profile: <https://help.fiba3x3.com/en/support/solutions/articles/35000150842-turning-unconfirmed-profile-into-a-confirmed-profile>

2. May a NF create a play.fiba3x3.com profile for a player, if a player does not have such profile yet?

The NF may not create profiles on behalf of players. Every user registered on play.fiba3x3.com shall create and confirm his profile himself. Profiles created by NFs on behalf of players will not get verified by FIBA, but rather will they get deleted.

3. Can a player turning 15 years or younger get verified?

Players can get verified at the earliest in the year when they enter the U18 category, meaning in the year when they turn minimum 16 years of age. Before that, no player verification is possible.

FAQs

4. *If a NF for a player cannot present a passport with an issue date that meets the eligibility criteria, is this player then considered non-eligible?*

If a NF cannot present a passport with an issue date that meets the eligibility criteria and cannot bring an expired passport or a certificate of the expired passport nor refer to a FIBA MAP entry, such player is not considered non-eligible per se. Such player will be verified according to the issue date of the presented passport and will be eligible once the passport issue date meets the eligibility criteria.

5. *Are players registered in FIBA MAP automatically verified for 3x3 national team competitions?*

Players registered in FIBA MAP are not automatically verified for 3x3 national team competitions. It is every NF's responsibility to request verification for every athlete.

6. *Why are birth certificates accepted as supporting documents for U17, U18 and U23 competitions, but not for Open competitions?*

The underage category have lighter eligibility criteria compared to the Open category (see Book 6 IR). However, the different criteria for underage categories may not annul the criteria of the Open category. For the Open category it is mandatory to prove that a player had the legal nationality and a passport issued before the respective eligibility cut-off date, while for the underage categories only the legal nationality obtained before the respective eligibility cut-off date must be proven.

This can result in underage players being eligible to play for the national teams in underage categories, while for the Open national teams they must sit out until their passport meets the eligibility criteria.

1. What is the minimum age to play in a FIBA 3x3 Official National Team Competition?

No U18 players can get registered for Open or U23 competitions.

For U18 and U17 competitions, players must turn minimum 16 years of age in the year of the competition (Book 6 IR).

2. Can a NF register players for an incomplete roster after the closing of team registration?

The NF can request an extension of the player registration deadline of maximum 48h after the closing of registration at the costs of an administrative fee of USD 2,500.

3. Can a NF register a Substitute player after the deadline for registering Substitute players?

In case a NF has not yet filled both Substitute player slots after the deadline for registering Substitute players, it can request an exception at the costs of an administrative fee of USD 500 per player.

4. Can a NF add or remove players after the closing of player registration?

After the closing of player registration all registered players and all Substitute players once registered are part of the Extended Roster. In case a NF wants to replace registered players, it can request an exception until 24h prior to the Technical Meeting at the costs of an administrative fee of USD 2,500.

5. Can a NF register a non-verified player directly in the player registration in the NT Management section?

Only verified and eligible players can get registered for a national team roster irrespective of their passport issue date. Non-verified players cannot get registered and need to first get verified before getting registered. Timely verification request is an exclusive NF responsibility.

1. *Can a NF have the Top-10 list frozen for the World Cup or World Cup Qualifier in Open category changed retroactively?*

Changes to the frozen list of Top-10 players for the registration to a World Cup or World Cup Qualifier after the cut-off date for the freezing of this list are not possible.

2. *If a NF retroactively requests verification of a player that would have had enough ranking points to be included in the frozen Top-10 list (but was not due to not being verified), can the NF then register the player for one of the slots reserved for Top-10 players?*
