# 1. FIBA 3x3 National Team Competitions

- 1.1. FIBA 3x3 National Team Competitions means any and all 3x3 national team competitions organised or recognised by FIBA, categorised as follows:
  - a) FIBA 3x3 Official National Team Competitions
  - b) FIBA 3x3 Recognised National Team Competitions
- 1.2. FIBA 3x3 Official National Team Competitions means the following FIBA 3x3 National Team competitions, regardless of the age category:
  - a. Olympic Games,
  - b. Youth Olympic Games,
  - c. FIBA 3x3 World Cups,
  - d. FIBA 3x3 Zone Cups,
  - e. FIBA 3x3 Youth Nations League (“NL”)
  - f. Qualifiers to FIBA 3x3 Official National Team Competitions
- 1.3. FIBA 3x3 World Cups (Open and U23) and FIBA 3x3 Zone Cups (Open) and the NL are played, in principle, annually. FIBA may decide that no FIBA 3x3 World Cup shall take place in the same calendar year as the Olympic Games.
- 1.4. FIBA 3x3 Recognised National Team Competitions are the only competitions played by national teams recognised by FIBA, which are not FIBA 3x3 Official National Team Competitions. Such competitions are organised and executed by a separate governing body, with FIBA appointing a Technical Delegate to supervise the competition. Moreover, these competitions shall
  - a) be properly uploaded on [play.fiba3x3.com](http://play.fiba3x3.com);
  - b) follow the corresponding criteria, insofar as applicable, established by FIBA for national team competitions.
- 1.5. A National Member Federation may not be represented by more than one male and one female team in any FIBA 3x3 Official National Team Competition unless provided otherwise in the relevant competition rules.
- 1.6. FIBA 3x3 Zone Cups are open to all eligible National Member Federations. In case of over-registration, FIBA will organise a Qualifier(s) prior to the Zone Cup.
- 1.7. Medals (gold, silver, bronze) shall be awarded at FIBA 3x3 World Cups and FIBA 3x3 Zone Cups. Winners of Semi-Final games will play for the gold medal, the losers of the Semi-Final games will play for the bronze medal. All other teams, including those that played only the Qualifiers (whether a qualification draw or tournament), will get ranked according to the Official 3x3 Basketball Rules of the Game. Medals shall be provided also for individual contests, if any.
- 1.8. Books 1 to 5 of the FIBA Internal Regulations apply to the FIBA 3x3 National Team Competitions, unless otherwise provided in Book 6 of the FIBA Internal Regulations. The present Handbook sets forth the specific provisions for the FIBA 3x3 Official National Team Competitions. In case of any conflict or discrepancy, the following hierarchy shall apply (each category to prevail over any category mentioned below it):
  - a. FIBA General Statutes;
  - b. FIBA Internal Regulations and other rules, regulations, and decisions of FIBA; and

c. The present Handbook.

- 1.9. FIBA, acting through the Secretary General, is entitled to apply changes to the competition formats of the FIBA 3x3 National Team Competitions.

The player shall be available at least for a release period starting 120 hours before the beginning of the first game and ending 24 hours after the end of the last game of the relevant FIBA 3x3 Official National Team Competition.

## 2. Categories

- 2.1. The categories for FIBA 3x3 Official National Team Competitions are U23 and Open. FIBA 3x3 Official National Team Competitions are played simultaneously for men and women in the respective category. The men's and women's category may be of different size regarding team numbers if less teams register in one of the categories (however, in principle there should be no less than four teams in a category).
- 2.2. To calculate the age limit corresponding to the respective underage FIBA 3x3 Official National Team Competition, the following procedure is used: the age limit of the competition must be subtracted from the year in which the competition takes place with the understanding that this year begins on 1 January. Players must turn 19 or older by the end of such calendar year.

Calculation of minimum age:	year of the competition minus 19	
Example for competition in 2024:	2024-19 = 2005	
	<b>Earliest year of birth:</b>	
Calculation of max. age:	competition year – 23	n/a
Example for competition in 2024:	2024 - 23 = 2001	n/a

## 3. FIBA 3x3 Federation Ranking

- 3.1. The FIBA 3x3 Federation Ranking is the ranking of all National Member Federations based on the FIBA 3x3 Individual World Ranking points of their top 25 nationals (with a confirmed FIBA 3x3 Profile) in the respective category. In case of a tie in ranking points, the tied National Member Federations will be ranked based on their highest ranked player in the corresponding category. The FIBA 3x3 Federation Ranking is published on [fiba3x3.com](http://fiba3x3.com) and updated on a daily basis at 1200 UTC.
- 3.2. Ranking points of Non-Registered Profiles are not considered for the FIBA 3x3 Federation Ranking even if this profile is ranked in the top 25 of a National Member Federation.
- 3.3. The FIBA 3x3 Federation Ranking is calculated separately for the following categories: U18 men, U18 women, U23 men, U23 women, Open men and Open women.
- 3.4. Further Combined Rankings (men and women together) are calculated for U18, U23 and Open categories by taking the geometric mean of the ranking points of men and women in the given category (= square root of the product of ranking points of both men and women in the given category). If a National Member Federation has zero ranking points for a gender in a given category, the Combined Ranking for this category shall show zero points.

## 4. FIBA 3x3 World Cup (Open category)

- 4.1. In principle, the FIBA 3x3 World Cup is played with 20 teams for men and 20 teams for women over seven days of competition. Teams are divided into four pools of five teams each. Teams ranked second or third in their pool must enter a pre-quarterfinal play-in.

    - i. If a team that qualified through a FIBA 3x3 Zone Cup has already been allocated a slot and/or is not eligible at the Cut-Off Date, its slot shall be allocated to the next highest placed team that is eligible at the Cut-Off Date from the same FIBA 3x3 Zone Cup, and so on;
    - ii. If no FIBA 3x3 Open Zone Cup is organised in the relevant Zone in the year preceding the FIBA 3x3 World Cup, the open slot(s) shall be allocated to the team(s) with the highest FIBA 3x3 Federation Ranking that has not already been allocated a slot; and
    - iii. If a FIBA 3x3 Zone Cup is announced prior to the Cut-Off Date and played after the Cut-Off Date but before the end of the same calendar year, the slot shall be reserved and allocated as set forth in art. 6-61.c IR once the FIBA 3x3 Zone Cup is played.

- 5.3 FIBA retains the right to substitute a team at any time if there are reasonable grounds to assume that this team may not be in a position to participate (e.g. visa process not followed).

## 6. FIBA 3x3 Zone Cups

- 6.1. FIBA 3x3 Zone Cups are organised in the Open category. FIBA 3x3 Zone Cups are played in principle with 12 teams for men and 12 teams for women over three days of competition, except if otherwise approved by FIBA. Teams are divided into four pools of three teams each. The competition is played with a round robin system followed by single elimination as of the Quarter-Finals.
- 6.2. Registration to FIBA 3x3 Zone Cups is open to all eligible National Member Federations of the respective Zone. However, FIBA can invite non-eligible National Member Federations at its discretion, with a view to develop 3x3 in a certain country.
- 6.3. If there are more than 12 teams registered in a gender to the respective FIBA 3x3 Zone Cup, FIBA will organise the required Qualifier(s). FIBA will decide at its discretion the team(s) that, in addition to the hosting National Member Federation's teams, will be directly assigned to the Main Draw of the respective FIBA 3x3 Zone Cup based on objective criteria (e.g. winner of the prior edition, highest ranked countries in the gender ranking in the Open category).
- 6.4. FIBA may organise a Qualifier specifically for National Member Federations in Groups C and D (see Book 1, Chapter 2 of IR), in order to qualify the winner in each gender to the respective FIBA 3x3 Zone Cup.
- 6.5. FIBA will endeavour to ensure that teams are drawn to the Qualifiers based on regions or based on the combined ranking of the National Member Federation in the respective age category of the FIBA 3x3 Federation Ranking. Teams will be allocated in the following sequence:
  - a. hosts;
  - b. National Member Federations with teams registered in both genders;
  - c. National Member Federations with teams registered in one gender.

Team 6 (6 <sup>th</sup> highest rank)	Team 5 (5 <sup>th</sup> highest rank)	Team 4 (4 <sup>th</sup> highest rank)
Team 7 (7 <sup>th</sup> highest rank)	----->	----->
Team n (lowest rank)	<-----	----->

- 6.6. Teams playing in a Qualifier to a FIBA 3x3 Zone Cup that do not qualify to the Main Draw will be ranked in the final standings of the FIBA 3x3 Zone Cup based on their Qualifier results, however, not higher than the teams playing in the FIBA 3x3 Zone Cup Main Draw.
- 6.7. As a general rule, teams already qualified to the Main Draw of a FIBA 3x3 Zone Cup should not participate in the Qualification Tournament unless it is hosting this tournament. In such exceptional cases, the QT-hosting National Member Federation shall not be allowed to proceed to the elimination round or second pool round of the Qualification Tournament; instead, the next ranked team in the pool with the hosting National Member Federation shall proceed to the elimination round or second pool round of the Qualification Tournament.
- 6.8. FIBA retains the right to substitute a team at a Zone Cup Main Draw at any time if there are reasonable grounds to assume that this team may withdraw (e.g. visa process not followed).

## 7. FIBA 3x3 Youth Nations League

- 7.1. The NL is played (in principle) in conferences of six teams per gender. However, if necessary, FIBA reserves the right to create conferences with a different number of teams.
- 7.2. FIBA will allocate the National Member Federations to the respective conference by using reasonable and logistics criteria such as, but not limited to: Federation Rankings (age, male, female, or combined), geographical considerations, and available slots. FIBA may decide to otherwise allocate NMFs in case the hosting interest in a conference exceeds the number of required Triple or Sextuple hosting opportunities in a conference or in case the number of registered teams exceeds the available slots in a Zone/region. Each conference shall be played in a series of Triples. In exceptional cases FIBA may discretionally decide to play a conference in a Sextuple. Each conference shall have a separate conference standing.
- 7.3. In principle, each leg of a Triple shall be played with two pools per category. The competition is played with round robin system followed by a Final. No third-place game shall be played. In case of four teams or less in a conference or leg, the leg(s) shall be played with only one pool.
- 7.4. The winners of each conference of the NL shall qualify to the FIBA 3x3 U23 World Cup of the same calendar year. Further teams may qualify to the FIBA 3x3 U23 World Cup based on the NL League Standings of the same calendar year as per the qualification process to this competition ([Article 5.2](#) of this Handbook). Every National Member Federation can only be represented by one national team per gender at the FIBA 3x3 U23 World Cup, even if winning the U23 and U21 conference with its national teams.
- 7.5. Registration for the NL shall be open to all National Member Federations eligible as per [Article 8](#) of this Handbook. However, FIBA can invite non-eligible National Member Federations at its discretion, with a view to develop 3x3 in a certain country. Registration shall only be possible with teams of both genders and shall follow the process described in [Article 10.8](#) of this Handbook. Exceptions may be granted to teams filling in ad-hoc in case of withdrawals of other teams.
- 7.6. Registration of a second team comprised by only U21 players category shall be available only to those National Member Federations that participated in the previous edition of the NL. Insofar feasible, the U21 teams and U23 teams of a National Member Federation shall not be assigned to the same conference.
- 7.7. The NL National Member Federations may carry an extended roster of 6 players per team for the season. [Article 12.11 et seq.](#) of this Handbook shall apply.
- 7.8. To the extent that it is not in contradiction to the relevant competition handbooks (i.e. FIBA 3x3 Pro Circuit Handbook for Men; FIBA 3x3 Women's Series Handbook for Women), the best-ranked National Member Federations of the FIBA 3x3 U23 World Cup shall be granted (on request) an opportunity to register a team in the following year's FIBA 3x3 Men's Pro Circuit or FIBA 3x3 Women's Series (as relevant) as indicated below:
  - a. A Pro Circuit validated team (other than a Hard-Seeded team) shall be granted (upon request) the privileges listed below if four (4) or more of its players were part of the same roster of one of the National Member Federation teams in the previous NL season:
    - i. For the best ranked National Member Federation in the FIBA 3x3 U23 World Cup: two World Tour slots and two Challenger slots in the season following its NL campaign to the Pro Circuit validated team whose players (four or more) were part of a roster of any of the teams of the National Member Federation of the previous NL season. FIBA will pay a travel allowance as per FIBA 3x3 Pro Circuit Handbook;
    - ii. For the second-best ranked National Federation Member in the FIBA 3x3 U23 World Cup: one (1) World Tour slot and one (1) Challenger slot in the season following its NL campaign to the

Pro Circuit validated team whose players (four or more) were part of a roster of any of the teams of the National Member Federation of the previous NL season. FIBA will pay a travel allowance as per FIBA 3x3 Pro Circuit Handbook.

- iii. For the third- and fourth-best ranked National Federation Member in the FIBA 3x3 U23 World Cup: one (1) Challenger slot in the season following its NL campaign to the Pro Circuit validated team whose players (four or more) were part of a roster of any of the teams of the respective National Member Federation of the previous NL season. FIBA will pay a travel allowance as per FIBA 3x3 Pro Circuit Handbook.
- b. Teams must request any allocation they might be entitled to under this section before 1 July of the applicable Pro Circuit season, otherwise the right to request the allocations will be deemed as waived. Allocations will be subject to availability, done, in principle, with three months in advance and made to geographical nearby events. For the avoidance of a doubt, in principle the allocation shall always be to the Qualification Draw of a World Tour or Challenger.
- c. The women's teams of the two highest-ranked National Member Federations in the FIBA 3x3 U23 World Cup shall be granted (on request) a slot in the FIBA 3x3 Women's Series of the following season. If the relevant National Member Federation has already fielded a team for the FIBA 3x3 Women's Series, the slot will be granted as a second team of the same National Member Federation. The following conditions apply to both of the aforementioned teams:
  - i. The league registration fee for the FIBA 3x3 Women's Series shall be waived (if requested);
  - ii. The event registration fee for the first stop of the team in the FIBA 3x3 Women Series shall be waived (if requested);
  - iii. For any additional stop of a FIBA 3x3 Women's Series, the team or teams shall be required to pay the applicable event registration fee;
  - iv. A player playing for one of the aforementioned teams cannot play for another FIBA 3x3 Women's Series team in the same season;
  - v. A minimum of four players of such FIBA 3x3 Women's Series team must be from an roster of any of the teams of the National Member Federation in the previous NL season.

## 8. National Member Federation Eligibility for FIBA 3x3 National Team Competitions

- 8.1. Only NFs that meet the eligibility criteria at the Cut-Off as set forth in Article 8.2 of this Handbook may participate in FIBA 3x3 Official National Team Competitions.
- 8.2. National Member Federations eligible to participate in FIBA 3x3 Official National Team Competitions are those that have:
  - a. within their territory a minimum of three FIBA 3x3 Competitions organised, in the twelve (12) months prior to the applicable Cut-Off Date (i.e. 1 December of the previous calendar year, unless otherwise determined by FIBA; for the 2024 FIBA 3x3 Official National Team Competitions, the Cut-Off Date shall be 1 November 2023.). Only competitions with a minimum category/division size of four teams are considered for eligibility purposes; and
  - b. a valid 3x3 e-learning certification held by a National Member Federation Backend user.

The 3x3 E-Learning platform is a complimentary educational tool for FIBA's National Member Federations. The Backend users of a National Member Federation are granted access to this 3x3 E-Learning platform with the credentials of their play.fiba3x3.com profile at <https://learning.fiba3x3.com/signup>. The 3x3 E-Learning certification is individual and once obtained, is valid for two Cut-Offs before the need for renewal.

- 8.3. Eligibility criteria for the participation in FIBA 3x3 Recognised National Team Competitions are set by the organising body of the respective competition, as approved by FIBA.

# 9. Team Registration to FIBA 3x3 Official National Team Competitions

IR prior to the date mentioned in letter 10.3.a of this Handbook. Such confirmation shall be registered through a corresponding entry in FIBA’s MAP.

# 11. Player Verification

11.1. Verified Players are players whose eligibility for the respective age category for a particular National Member Federation has been confirmed by FIBA and who are enrolled in FIBA's 3x3 Backend as verified players. National Member Federations can track the verification status for each of their players in the *Players* section of the Backend.

11.2. Players are verified upon request of a National Member Federation in the Backend – insofar as passports are being provided – or automatically upon becoming part of the roster of a team in a Challenger, Women's Series or World Tour based on the presented passport during registration to such competition.

11.3. Players need to get verified only once. Verification is individual- and category-driven, but not competition-driven.

Subject to articles 6-26 IR through 6-28 IR, a change of nationality of a player who has already had their national status confirmed shall always enter into effect as of 1 January of the year when such player would be considered eligible for the 3x3 national team of the new National Member Federation (see 6-26). In principle, a player can request change of nationality only once.

11.4. Player verification may get requested by a National Member Federation at any time. However, player verification may take up to 10 working days. Timely verification requests shall be a National Member Federation responsibility.

11.5. Only players with a Confirmed Profile on [play.fiba3x3.com](http://play.fiba3x3.com) can get verified. National Member Federations can track the confirmation status for each of their players in the *Players* section of the Backend.

11.6. Players are verified exclusively based on their passports or their FIBA MAP entries. Expired passports are accepted for player verification. A player enrolled in FIBA's MAP is not automatically verified in the Backend, unless requested by the National Member Federation.

11.7. A National Member Federation that wishes to verify a player shall upload the currently valid passport – together with an expired passport if the currently valid passport was issued after the deadline mentioned in [Articles 10.2.b](#) or [10.3.a](#) of this Handbook – when requesting the verification of a player in the Backend. The verification request shall only be approved if name, gender and date of birth of the profile match exactly the data on the submitted passport. If this data does not match, the player shall edit the profile accordingly before verification is requested.

11.8. In case the expired passport was kept by the passport issuing authority, a confirmation from the passport issuing authority with a certified translation to English stating the passport number as well as issue and expiry date of this expired passport shall be submitted.

11.9. Further, a FIBA MAP entry that clarifies that the player had met the passport criteria before the deadline mentioned in [Articles 10.2.b](#) or [10.3.a](#) of this Handbook may replace the passport during the verification process.

11.10. For players in U23 Competitions FIBA may request at its discretion other supporting documents to clarify the nationality of a player in case such player cannot prove with a FIBA MAP entry or passport that the passport criteria had been met before the deadline mentioned in [10.3.a](#) of this Handbook. However, such verification then shall only be valid for U23 competitions, but not for competitions in the Open category.

11.11. For competitions where players must hold a particular ranking position or a minimum number of ranking points in order to be considered eligible for this competition, only players verified before 12.00 UTC of one day prior to the opening of the player registration for this competition will be considered. Players verified after the communicated deadline will not be considered nor eligible.

- 12.3. National Member Federations must register four eligible players for the four Event Roster slots per team for each competition. National Member Federations may only register players whose eligibility has already been verified by FIBA (see article 6-29).
- 12.4. For all FIBA 3x3 Official National Team Competitions, except for the NL, National Member Federations should register two (2) eligible potential Substitutes for the two Substitute slots until one week prior to competition start. After the lapse of this deadline, no other potential Substitutes can be nominated.

Further, all team delegates shall be registered until one week prior to the competition start. Delegates shall only require a confirmed play.fiba3x3.com profile. Verification of delegates is not necessary.

- 12.5. Player and team delegate registration for all FIBA 3x3 Official National Team Competitions, except for the NL, opens one month prior to the event and closes one week prior to the event (see Diagram 1).

- 12.6. With the closing of registration, any player registered for one of the four Event Roster slots and any player registered for one of the two Substitute slots is locked into the Extended Roster and cannot be removed anymore from the roster. FIBA may grant exceptions to this limit of six players until 24 hours prior to the competition start for an administrative fee as regulated in [Annex 1 to FIBA 3x3 Handbooks](#).
- 12.7. At all FIBA 3x3 Official National Team Competitions the National Member Federation may substitute the registered Event Roster players with registered Substitutes at their discretion until the Technical Meeting of the competition without giving any reasons to FIBA. Such substitutions shall be done by the National Member Federation in the Backend via the *Substitute* button next to each event roster player in the *NT Management* section. After the closing of the Technical Meeting no more roster changes are possible.
- 12.8. For FIBA 3x3 World Cups and World Cup Qualifiers in the Open category, four players from the extended roster (and minimum two of the players from the event roster) shall be within the country's top 10. These players shall be eligible and verified players in the applicable gender category of the FIBA 3x3 Individual World Ranking one day (at 1200 UTC) before the start of player registration to the relevant competition. For the avoidance of doubt, this article is not applicable to the FIBA 3x3 U23 World Cup or any FIBA 3x3 Zone Cups.
- 12.9. National Member Federations that fail to register four players per team prior to the closing of registration or the extended deadline referred to in [Article 12.5](#) of this Handbook shall lose their participation right, may be replaced through a decision of FIBA by a substitute team, and sanctioned as set forth in article 6-40 IR. Additionally, a ban from participating in any FIBA 3x3 Official National Team Competition for a period of time not exceeding one Olympic cycle may be imposed by the Secretary General.
- 12.10. National Member Federations that appear with only three players for a team at the Technical Meeting of a competition may be sanctioned with an administrative fine as regulated in [Annex 1 to FIBA 3x3 Handbooks](#).
- 12.11. For the NL, National Member Federations may carry an Extended Roster of six players per team for the season. Players are locked into the Extended Roster and cannot be removed anymore as soon as they play in one leg of the NL. FIBA may grant exceptions for removing up to two locked-in players for an administrative fee as regulated in [Annex 1 to FIBA 3x3 Handbooks](#). Players that have not yet played may be removed from the Extended Roster at any time. In case a National Member Federation has more than one team of a gender in the U23 NL, no player shall play in more than one U23 NL team of the National Member Federation.  
  
For the NL, the relevant National Member Federation shall register a minimum of four players until one week prior to the start of the respective Conference and shall maintain a minimum of four players on the registered roster at all times during the NL season (including the Final). It shall be possible to add in the Backend, until the start of the Technical Meeting of a leg, further players or replace players not yet locked into the roster.
- 12.12. The final roster of a team for a NL stop shall be announced by the National Member Federation at the Technical Meeting of the respective leg. FIBA staff on site of a NL stop will not check player eligibility. Therefore, players not registered by the Technical Meeting are not allowed to enter the competition.

## 1. The Dunk Contest format is as follows:

### a) Rules:

The jury is composed of five members or, if not feasible, by three members. Each judge will score zero or any number from five to 10). Only successful dunks are graded.

In each round the first successful dunk of up to three attempts will be counted. If the first or second attempt is successful, there will be no further attempts.

It is considered an attempt if the ball or hand touches the rim with the intention to complete the dunk. An attempt is considered successful if the ball, after leaving the athlete's hand and entering the basket from above, does not leave the rim in an upward vertical direction.

In case of three unsuccessful attempts in a round, the athlete will receive zero points for this round. The highest and the lowest score are not taken into consideration and only the remaining three scores account for the score of a successful dunk.

In case of a draw the tied dunkers are each given one additional dunk (three attempts). Tie-breaking dunks are not graded, but the jury will take a majority decision after the last player has completed the final dunk attempt. Tiebreakers shall only be implemented for medal positions or positions to advance to further rounds.

### b) Qualification:

There will be two rounds. The results of the two rounds are added up to a total score.

The athletes will start in alphabetical order (by family name).

Athletes will have 75 seconds to execute a dunk, starting from the moment their name is announced. The athlete needs to start his final attempt before the time runs out.

The four athletes with the highest score after the two rounds shall advance to the Semi-Final.

### c) Semi-Final:

The same format of competition will apply as in the qualification rounds.

The athlete with the lowest score in the qualification rounds will go first and the athlete with the highest score will go last. In case of a tied score, the alphabetical order (by family name) will define the starting order.

The scores of the qualification rounds are not carried over to the Semi-Final, i.e. the scores start from zero again.

The two athletes with the highest score in the Semi-Final will advance to the Final.

The athlete with the third highest score in the Semi-Final will be the winner of the bronze medal.

d) Final

The same competition format will apply as in the qualification rounds and the Semi-Final with two exceptions: the athletes will compete in three rounds and there will be no time limit for the dunk attempts in the third round of the Final.

The athlete with the lower score in the Semi-Final will go first and the athlete with the higher score will go second. In case of a tied score, the alphabetical order (by family name) will define the starting order.

The scores of the Semi-Final are not carried over to the Final, i.e. the scores start from zero again. The athlete with the highest total score in the Final will be the gold medal winner, the second finalist will be the silver medal winner.
