Appendix I – Format of Individual Contests

The Secretary General of FIBA is entitled to apply changes to this Appendix I.

1.1. The Dunk Contest format is as follows:

a) Rules:

The jury is composed of five members. Each judge will score 0 or any number from 5 to 10.

Only successful dunks are graded.

In each round the first successful dunk of up to three attempts will be counted. If the first or second attempt is successful, there will be no further attempt.

It is considered an attempt if the ball or hand touches the rim with the intention to complete the dunk. An attempt is considered successful if the ball, after leaving the dunker's hand and entering the basket from above, does not leave the ring in an upward vertical direction.

In case of 3 unsuccessful attempts in a round, the athlete will receive 0 points for this round.

The highest and the lowest score are not taken into consideration and only the remaining 3 scores account for the score of a successful dunk.

In case of a draw the tied athletes are given 1 additional dunk (3 attempts). Tie-breaking dunks are not graded, but the jury will take a majority decision after the last athlete has completed the final dunk attempt.

b) Qualification:

There will be 2 rounds. The results of the two rounds are added up to a total score.

The athletes will start in alphabetical order (by family name).

For each dunk the athletes will have 75 seconds starting from the moment their name is announced. The player needs to start his final attempt before the time runs out.

The 4 athletes with the highest score shall advance to the Semi-Final.

c) Semi-Final:

The same format of competition will apply as in the qualification round.

The athlete with the lowest score in the Qualification will go first and the athlete with the highest score will go last. In case of a tied score, the alphabetical order (by family name) will define the starting order.

The scores of the Qualification are not carried over to the Semi-Final, i.e. the scores start from zero again. The 2 athletes with the highest score in the Semi-Final will advance to the Final.

The athlete with the 3rd highest score in the Semi-Final will be winner of the bronze medal.

d) Final

The same competition format will apply as in Qualification and Semi-Finals with 2 exceptions: the athletes will compete in 3 rounds and there will be no time limit in the 3rd round of the Final.

The athlete with the lower score in the Semi-Final will go first and the athlete with the higher score will go second. In case of a tied score, the alphabetical order (by family name) will define the starting order.

The scores of the Semi-Final are not carried over to the Final, i.e. the scores start from zero again. The athlete with the highest total score in the Final will be the gold medal winner, the 2nd finalist will be the silver medal winner.

1.2. The shoot-out contest format is as follows:

a) Rules:

The Shoot-out contest foresees a separate female and male qualification and the best 2 shooters of each gender will meet in the Final.

The player may not step on or over the line prior to releasing the ball on a shot attempt and cannot touch the ball before the start signal of the referee.

b) Qualification:

For each player, the time required from the start signal of the referee to the moment the last ball releases the player's hands is timed.

2 racks with 5 balls each are placed at 45° behind the 2-point line with a 30 seconds countdown for each shooter.

Each basket counts 1 point.

The 2 athletes with the highest score in each gender will qualify for the Final.

The better time will work as a tie-breaker in case of a tied score. In case of a tie of time and score, these athletes shall shoot again.

c) Final:

The 2 best male and 2 best female players will compete against each other.

The final is played with a 60-second countdown for each shooter.

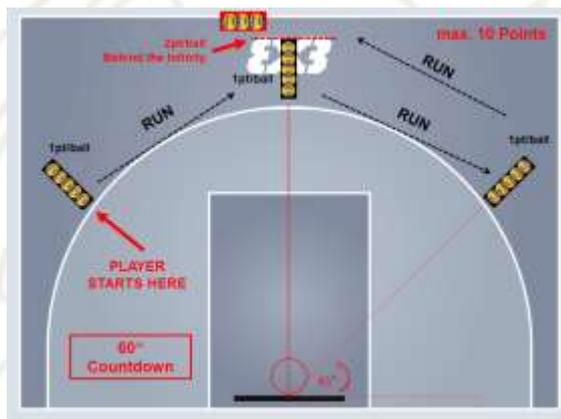

3 racks of 5 balls are placed at 45° left side, 45° right side and on top of the arc behind the 2-point line, from which each scored basket counts 1 point.

1 rack of 3 balls is placed at 0.9m from the end-line in front of the basket, from where each scored basket counts 2 points.

The player will start from a rack on one side, proceed with the rack on top of the arc followed by the rack on the other side. The player will finish the round with shooting from the rack placed at 0.9m from the end-line.

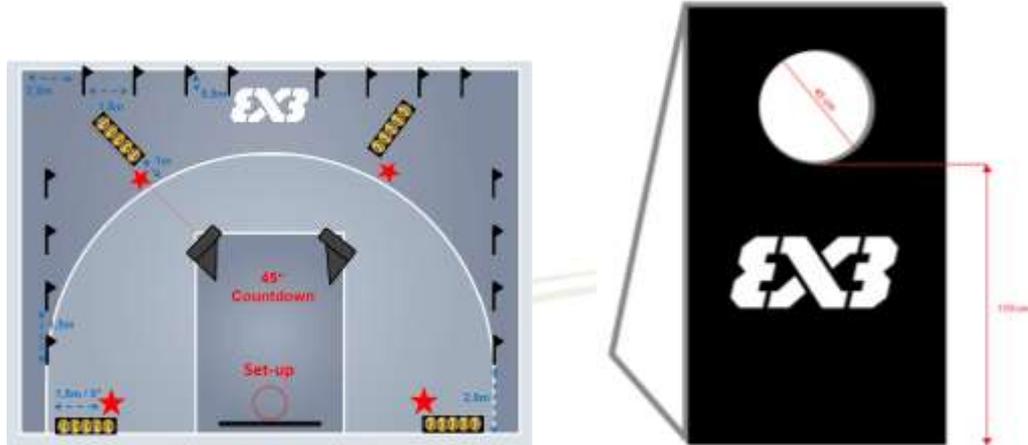

The player with the highest score (maximum score is 21 points) within the 60-second countdown is the winner.

In case of draw, the better time will work as a tie-breaker. In case of a tie of time and score, these athletes shall shoot again.

1.3. The skills contest format is as follows:

a) Set-up:

b) Qualification:

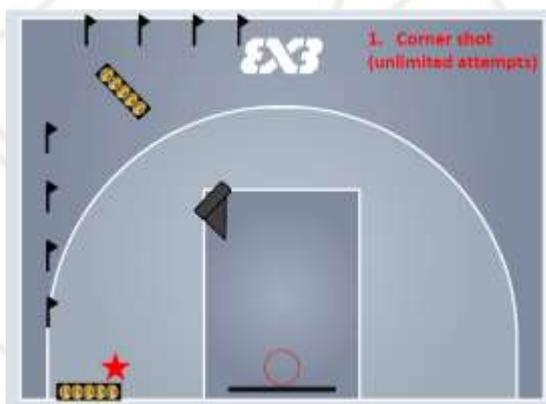

There will be 1 qualification round.

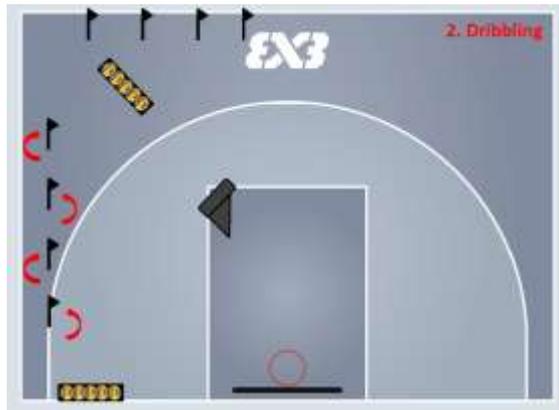

For each player the time required from the start signal of the referee to the moment the final score enters the rim shall be taken.

In the Qualification a time limit of 45 seconds is applied. Players exceeding the 45 seconds time limit are eliminated from the competition.

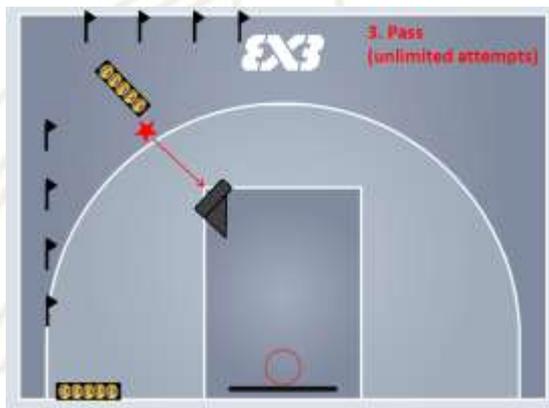

In the qualification, the players will be allowed to select the side of the court on which they want to compete.

The players shall start with a shot from the baseline followed by a dribbling course through 4 cones along the side-line. The slalom course starts from the inside.

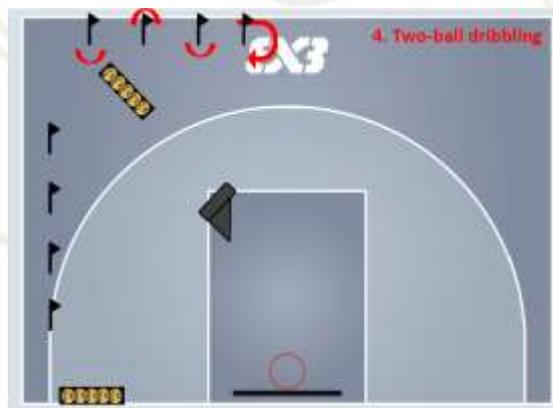

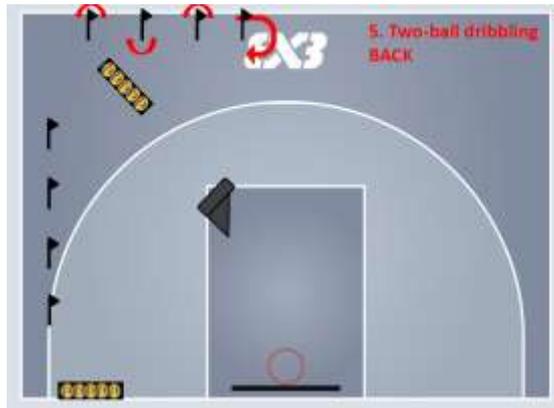

The player then must finish a pass in the passing target. The target is in the height of 1.1m (lower end) and has a diameter of 0.45m.

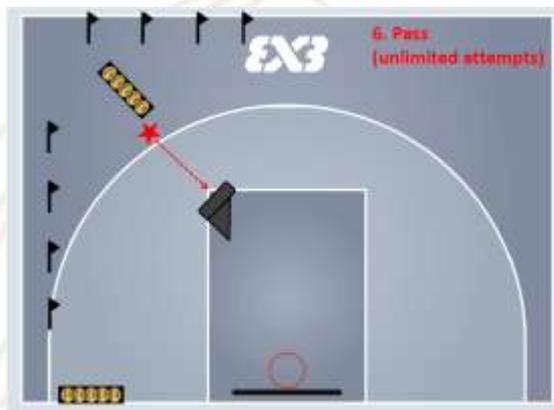

The player then must dribble with two balls through a dribbling course of 4 cones along the end-line opposite of the basket and on back. The slalom course starts on the inside.

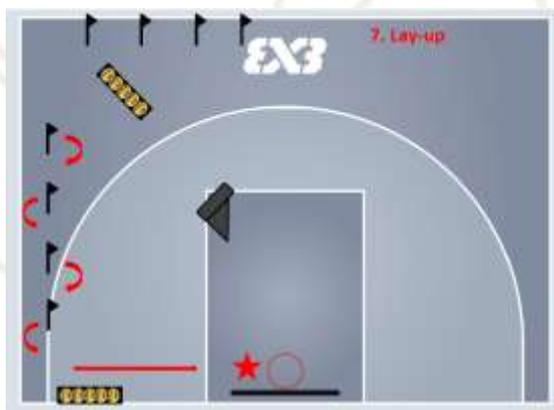

The player then must finish a pass through the passing target.

After completing the pass the player must return through the dribbling course and finish the course with a score. The slalom course starts from the inside.

The four players with the best time qualify for the Final.

In case of a draw, these players will compete again.

c) Semi-Finals and Final

In the Semi-Finals the player with the best time will compete against the player with the 4th best time and the player with the 2nd best time shall compete against the 3rd best player.

The match-ups shall be played in head-to-head simultaneously.

The player with the better time in the Qualification may choose on what side of the court she wants to compete. In case of a tie, a coin flip shall decide.

The player whose ball enters the basket first on the final score will win and advance to the Final.

Players interfering deliberately with the opponent, the opponent's lane or the opponent's ball may be disqualified.

The winners of the Semi-Finals will compete in the same way for the gold medal, while the losers of the Semi-Finals shall compete in the same way for the bronze medal. The player with the better time in the Qualification shall have the right to pick sides. In case of a tie, a coin flip shall decide.
